Transport Services**

## **PARKING AT THE SIDE OF THE ROAD**

If you must park on the side or shoulder of a road, make sure you have your warning devices out within 10 minutes. Keep in mind that four way flashers are required, especially at night. Don't trust you can just warn other drivers by leaving your taillights on because a lot of rear end accidents have happened due to drivers thinking the vehicle was moving normally.

Never park on the side of the road because you're out of hours or other non-emergency situations. For that you should plan ahead and know ahead of time where you will be spending your 10 hour break, keeping into consideration that truck stops fill out quickly. You should only park there if you have a breakdown, have a medical or other type of emergency.

**If you have any questions about this subject, please contact the Safety Department at ext. 1304 or email us at [ssandri@nalogistics.com](mailto:ssandri@nalogistics.com).**

**And remember..... Safety is not a choice is a must!**
