TIPS TO MERGING SAFELY

- You must yield to highway Traffic, so make sure you prepare well in advance by looking at your mirrors.
- Use your turn signal to let the drivers around you know your intentions.
- Identify a safe gap that your Vehicle can fit into and merge into it.
- While in the merge lane, adjust your speed to match the speeds of the other vehicles.
- Check your blind spots to make sure that you still have space to merge into the lane.
- When there is enough space for you on the highway, merge into that space, bringing your vehicle up to highway speed as quickly as possible, and turn off your turn signal.
-

If you have any questions about this subject, please contact the Safety Department at ext. 1304 or email us at ssandri@nalogistics.com.

And remember..... Safety is not a choice is a must!
